

Setup & Installation (INTERNAL)

Setup documentation pertaining to the installation of the 4x3 Teller software for use in WinPosiflex / BetJet hardware.

It is recommended a mouse and keyboard is plugged into the terminal for ease of use during installation.

In this documentation, we will cover the following Installation of software

Enrolling of terminals & Control Panel

Before commencing please ensure you have been granted access to Control Panel by requesting permission from your account manager or Betmakers technician

Testing Control Panel <https://uat.control.tbm.sh/terminals>

INT Control Panel <https://int.control.tbm.sh/terminals>

Production Control Panel <https://control.tbm.sh/terminals>

Installers Available BELOW

UAT: <https://wip.onscourseterminal.tbm.sh/installers/TerminalUI-UAT.exe>

INT: <https://int.onscourseterminal.tbm.sh/installers/TerminalUI-INT.exe>

PROD: <https://onscourseterminal.betmakers.com/installers/TerminalUI-Prod.exe>

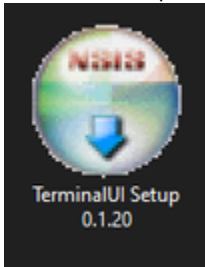

You will need access to the control panel on another pc/laptop or be in contact with a technician who can enrol the terminal remotely

This procedure must be carried out simultaneously to ensure smooth enrolment of each terminal

Installation of Software

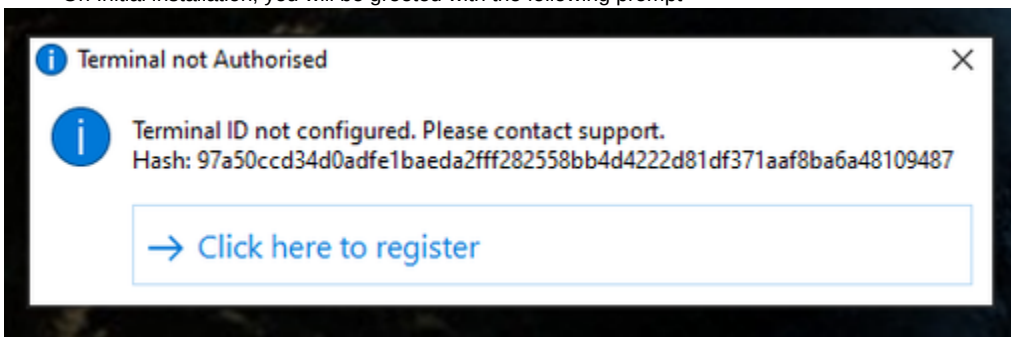

For installation of the 4x3 Terminal, you will need the latest version of the Installer. There are normally two versions at any one time, UAT (testing) and Production.

Please request the required version from your Account Manager or Betmakers support technician

Once you've downloaded the installer double-click on the installer (as pictured) to start the install process

On Initial installation, you will be greeted with the following prompt

Click on (Click here to register)

The following screen will then appear

SM BetMakers

Enrol New Terminal

Terminal Hash
97a50ccd34d0adfe1baeda2fff282558bb4d4222d81df371aaf8ba6a48109487

Technician's Name
Name of person installing new terminal

Terminal Location ID
Description of the terminal location eg: SouthCafe_Terminal001

Venue
This describes the venue eg. Monmouth

CANCEL **ENROL**

Enter the details as follows:

Technicians name (name of person installing software)

Terminal Location ID, (should describe an in-house inventory system eg: SouthCafe_Terminal0001) - unsure snake case or camel case is used

Venue, eg: Caymanas

Once you've done this, click **Enrol**
